Green, after which she was laid to rest in the old Dryden burying grove and 5 miles south of this city.

Halloween Party.

Miss Lulu Smith was the charming hostess at a unique and delightful Halloween party Tuesday evening. Autumn leaves were tastefully used for decoration while Jack-o-lanterns and yellow light shades adorned with black cats, snakes, rats, witches, caldrons, hats and bats carried out the Halloween idea. A mysterious looking nook in the hall soon invited the attention of the guests and when they were permitted to enter they found Mme. Kathrene, the painter, who told them something of what they are and what late holds in store for them.

An interesting part of the evening's entertainment was the blowing out of candles, the number which remained burning indicating the number of years before the sea of matrimony is to be entered.

A tub of water in which were apples with the girl's initials on them and each young man ducked his head and got an apple with his teeth to find who his partner for supper would be.

A delicious lunch, consisting of sandwiches, little pumpkin pies and cider was served, after which a cake of fortune was cut.

Several other amusing and interesting Halloween games entertained the guests and the evening was thoroughly enjoyed as evenings always are at Miss Smith's home. The following were present:

A Pitiful Case.

It was a bitter cold day in December, 1882, and the man was ragged and half-drunk. Behind him were his four motherless girls, likewise ragged and unkempt, and very cold and hungry. They had been turned out of the shack they called home and night was not far off. This was the reason for the journey to the pastor's residence—he was a good man and the father of these wretched children had heard of him.

The pastor himself answered the faltering knock. The five were taken to a warm fire, where he listened to the man's pitiful story, which, in substance, was, that he was a wreck, physically, morally and mentally; his wife had lately died, and his daughters were going to ruin. Would the pastor please take them and care for them?

The pastor explained that he had no way to provide for his girls; that he occasionally dispensed food and clothing to needy families, but did not receive children for direct, personal care; that his duties were to his congregation and his own family.

In great despair the man cried out:

"If you do not take my girls, God knows what will become of them. If doing such work as this ain't God's work, what is?"

The pastor's eyes were opened. He took the girls and cared for them in his own home. Other homeless, deserted waifs came to his notice. He rented a house and hired a woman to look after them.

The work grew, until he was compelled to lecture in its behalf to obtain means for its support.

Pitiful cases of suffering, want and sorrow came to his notice. His heart was burning with anguish for these little ones and their sorrow—so much more of it than he ever supposed could exist.

Thus was established the Christian Home Orphanage of Council Bluffs, Iowa, and its founder was the Rev. J. G. Lemen, who, after the Home had been established one year, gave up his private residence, resigned as pastor of his church, and literally moved over to the Home, put into it every cent of his earthly possessions and devoted his entire time to its management and its upbuilding.

The growth of this institution has been marvelous. Starting twenty-three years ago with one small frame cottage, it today occupies two city blocks of ground and has property valued at more than one hundred thousand dollars, which is all held by a board of trustees, and is so decided that it can never be mortgaged nor alienated, but must be used for an orphanage forever.

The Christian Home Orphanage is not a local institution, and is wholly undenominational in character, being controlled by no church, society or sect. It is strictly a charitable institution, depending entirely for its support upon the voluntary contributions of those who sympathize with homeless and destitute children.

It has no endowment, employs no agents, and charges no fees for receiving children, or for placing them for adoption with private families. It does not separate families of young children, believing that it is cruel to break up the family, scattering these little ones in all parts of the country.

This institution has cared for more than 4,000 children, and has constantly under its care an average of 220, many of whom are seriously and permanently crippled or afflicted in other ways.

The children are taught useful occupations, and are educated in the institution's own school. Chapel exercises are held every morning, and church and Sunday school every Sunday.

The Home receives destitute children free of all charges, from any part of the country.

One year ago the faithful founder of the orphanage died, and the work has been carried on by his eldest son.

A new brick dormitory for children under six years of age is now being erected, and funds are needed for additions to the industrial department. The manager appeals to all sympathetically inclined people to assist him.

Thanksgiving is near at hand, and donations of vegetables, fruits and canned goods, meats, poultry, butter, eggs, etc., are gratefully received. It is a large task to provide meals for this great number. Surely many will be led to help the good people of this institution in their laudable efforts.

Send all contributions, either of cash or merchandise, to the manager, H. R. Lemen, Christian Home, Council Bluffs, Iowa, who will promptly receive for the same, and give the donor credit in the official publication of the institution, "The Christian Home."

We believe there are many readers of this paper who will find pleasure in helping the manager of this orphanage provide a Thanksgiving dinner for his more than 200 charges.

The City Drug store man, E. B. Moore, informs us that Messrs. Evers, Hibberd & Summers, finished his residence to-day on Montgomery Heights. Mr. Moore is well pleased with the work. Burhan & Finley, of this city, furnished the Hard Oak doors, and all furnishings for the house. Mr. Moore moved in this week, and Mrs. Moore says she will be living at home in a week or two. Sam Hultz will occupy the house vacated by Mr. Moore.

G. E. MUNS, P. M.

The most deadly instrument known to man, says an exchange, is the human tongue. Dynamite is not in it as a trouble breeder. It is the hair trigger of the vicious. The less brain back of it the freer action. It goes off in the slightest provocations. It strikes heavier blows than the prize fighter or a mule kicking down hill. It causes more heartaches than a tax collector. A tongue can make a sore spot for years. The crime chargeable to the tongue are criticism, unkindness, gossip, lying, scandal, malice and hate. The aggregate of sorrow and murder.
